PERSONAL PROJECTS

Weather Forecast

- This application will show the temperature of a specific location.
- It will display the current day weather forecast with respect to different timings.
- For this project, I have used Weather API for fetching weather data.

Student Academic Performance Prediction Using ML Model

- The goal is to first visualize the data properly and then determine which classifier handles the data most efficiently.
- I have used three different classifiers namely - Perceptron, SVM and Random Forest.

Voice Assistance

- This application can control by your voice commands.
- It is user friendly.

CERTIFICATES

Android Development (05/2021 - 07/2021)

Python Programming (07/2021 - 08/2021)

Deep Learning & Applications (08/2021 - 09/2021)

Machine Learning and Deep Learning Applications (10/2021)

Joint FDP on Android Development (10/2021 - 11/2021)

Full Stack Development

EXTRACURRICULAR ACTIVITIES

Part of Nation Service Scheme (06/2022 - Present)

Visited Old Age Home to donate sweet and clothes on the occasion of Diwali, attended various plantation and cleanliness drives.
